

DIGITAL CERTIFICATES

TrustID | Medium Assurance |  
Individual Identity | Hardware Storage |  
Trusted By Adobe® Certificate

Because TrustID certificates are publicly trusted, affiliated programs are not applicable. Anyone can trust your signature or email secured by your TrustID | Medium Assurance | Individual Identity | Hardware Storage | Trusted By Adobe® certificate.

**Product Summary**

TrustID | Medium Assurance | Individual Identity | Hardware Storage | Trusted By Adobe® certificates are issued by the IdenTrust ITrustID program. These certificates are publicly trusted and are intended for individuals who are not affiliated with an sponsoring organization. They are used for signing and/or encrypting email messages and signing personal documents (S/MIME).

The digital signature on this certificate is automatically trusted by Adobe® when the signed PDF document is opened in Adobe® Acrobat® or Reader® software.

This a secure and trusted certificate that is stored on a FIPS 140-2 compliant hardware device and can be used with multiple devices if the ActivID® software is installed. It is also recognized and trusted by Adobe® as part of their AATL program.

Being a member certificated under the AATL program means that IdenTrust CA, the issuer of the Hardware certificate, has met the requirements and standards set by Adobe® for trusted certificates. The "Current AATL Members List" can be referred to for a list of organizations that are part of the AATL program.
